

### Mark Table

| Mark   | Part Name                                |
|--------|--|
| AR     | Auxiliary Relay                          |
| CA     | Capacitor for Indoor Fan                 |
| CN20~n | Connector                                |
| DSW3   | Unit Capacity Code                       |
| DSW4   | Unit Model Code                          |
| DSW5   | Refrigerant Cycle n°                     |
| DSW6   | Indoor Unit Setting                      |
| DSW7   | Fuse Recover/Remote Controller Selector  |
| DSW8   | Not Used                                 |
| EF2    | Fuse                                     |
| EFR1   | Fuse                                     |
| FS     | Float Switch                             |
| ITI    | Internal Thermostat for Indoor Fan Motor |
| MD     | Motor for Drain Discharge Mechanism      |
| MIF    | Motor for Indoor Fan                     |
| MV     | Micro-Computer Control Exp. Valve        |
| LED1~3 | Alarm Code                               |
| PCB-1  | Main Printed Circuit Board               |
| PCB-2  | Relay Printed Circuit Board              |
| X2     | High Speed Terminal                      |
| X3     | Medium Speed Terminal                    |
| X4     | Low Speed Terminal                       |
| X5     | S-Low Speed Terminal                     |
| RCS    | Remote Control Switch                    |
| RSW 1  | Indoor Unit no. Settings                 |
| RSW 2  | Refrigerant Cycle no. Settings           |
| TB     | Terminal Board                           |
| TF     | Transformer                              |
| THM1   | Inlet Air Thermistor                     |
| THM2   | Outlet Air Thermistor                    |
| THM3   | Liquid Pipe Thermistor                   |
| THM5   | Gas Pipe Thermistor                      |
| ⊙      | Terminals                                |
| —⊗—    | Close-end Connector                      |
| ⊗      | Field Supplied                           |
| ---    | Field Wiring                             |
| -----  | Earth Wiring                             |
| —      | Factory Wiring                           |
